

**Press Release – April 30, 2010**

**TTS Announces Total IT Solutions and launches pilot program at St. James Episcopal School, Houston, TX**

TTS' launched its 'Total K-12 IT Solutions' program at St. James Episcopal School in Conroe, TX. This program was launched to address the financial and operational strain caused by increasing IT related costs and complexities within K-12 schools. In particular, small and mid-sized K-12 schools bear the underlying difficulties of adopting and implementing current and modern technologies and solutions. The goal is to help eliminate some critical drawbacks associated with implementing technology solutions, such as adding overhead and investing in unnecessary infrastructure or hardware.

TTS works directly with school principals and IT directors to understand and address each school's business processes and goals. We launched our program at St. James Episcopal School in Conroe, TX. Our initial service offerings comprise of:

- Providing hosting services for email, SharePoint, and a website
- Providing computers for the 200 student school
- Integrating its software with other applications used at St. James
- Developing a custom solution for 'curb-side attendance'
- IT Support
- Enable wireless LAN across all the buildings in the school

Small private and public schools now struggle with mounting IT expenditures and complexities. Further, the recent increased spending on ICT and IT related services cause significant strain in K-12 schools, which typically lack the resources and capabilities to adopt and manage large scale IT changes. (Source: Gale Group)

TTS provides schools with the ability to outsource all IT requirements. With a team of over 250 engineers and support staff, Teledata has the experience and knowledge to handle all K-12 IT requirements.

At St. James Episcopal School in Conroe, TX, TTS provided computers, installed network services, provided hosting services, implemented a custom designed student information system, improved efficiencies across the school, and continues to provide day-to-day IT needs.

TTS' US headquarters is located in Walnut Creek, CA, and its global HQ located in Chennai, India, with its stock being traded in the Bombay Stock Exchange (BSE) and National Stock Exchange (NSE).
